From the Rev. J. W. Cullom. I write you a few lines from the conference room. The last few weeks of my pastoral work were so crowded that I have hardly had time to read the CHRONICLE, much less write for it.

Yesterday will be looked back to as a remarkable Sunday in our conference work. In closing the services last night, Dr. McFerrin said. "Thank God for this Sunday," and a chorus of amens went up from the congregation. The love feast at nine was remarkable for its power, and then at eleven Bishop Pierce, though feeble in health, preached, perhaps, the sermon of his life. He closed amid a cyclone of religious fervor, his voice-being almost drowned out by the responses and rejoicings of preachers and congregation. At three o'clock Dr. Barbee preached a masterly sermon, and a thoughtful preacher said to me that there was more solid theology in five minutes of the sermon than was usually heard in a whole discourse. At night Dr. Hanner preached. The Tennessee conference will never forget it while we remember anything. The subject was hope, and the sermon was the most tender and subdued in its utterances we have ever heard from him. He closed and sat down and then there was a pause for awhile till Dr. McFerrin in his seat started an old song which swept out through the vast congregation. Then the preachers, as if by one impulse, came forward and shook hands with Bro. Hanner; the inspiration caught to the congregation, and song after song was sung and the feeling was so deep that it was a

To the CHRONICLE: say a word to my friends through your columns. Our years labor has been greatly blessed of the Lord. We have had about seventy conver tions and the church much revived. We have had a great deal of sick- House Furnishing Goods. ness in the country, but our own family have had less than usual. Only one chill so far in the family, and the writer encountered that while in the pulpit last spring.

The dryest senson I ever saw has just closed with an abundant rain. It is hoped now that the health will get better. An abundant corn crop has been gathered, and many are about finishing the picking of cotton. Cotton is very light, something over half a crop. Sweet potatoes except early varieties almost a failure; also late Irish potatoes and turnips. Our climate is mild enough however, to have salad in abundance from seed sown in the middle of this month.

Some of our correspondents doubtless think us remiss. Our excuse is Harness for sale. The buggy is low Owen & Moore, has been pronounced the revival season and winding up persons. The Peculiar Old Mystery!

they never would tell patients what they were prescribing for them.

They said it would do the patients no good to know, and that it would

only be gratifying a foolish curiosity. In order to keep patients from

knowing, they would write the prescriptions in dog-Latin, so that most

patients could not read them. All that sort of thing is now over. The

patient wants to know what he takes. He is weak, and wants to be

strong, or he is dyspeptic, and wants to digest well. Or he has a

troublesome liver which he wants to put to rights. So he takes Brown's

Iron Bitters about which there is no mystery at all. This is the best

preparation of iron in the world, in combination with gentle yet effi-

cient tonics. It gives strength. It builds up enfeebled systems. It

enriches impoverished blood. It removes feminine weaknesses. It

casts out debility. It is what you want, and your druggist has it. 2
